

Grade 3 Australia 2050 CERES Incursion Thursday, 15th August, 2019

31st July, 2019

Dear Parents/Carers,

This term Grade 3 have become very keen Waste Warriors and are eager to learn more about preserving our planet and living more sustainably.

As part of our Inquiry investigations, CERES will be visiting the Grade 3 classes on **Thursday, 15th August** to deliver the incursion, *Australia 2050*. This program will explore sustainability in action and encourage students to create a vision for our country's future. Students will investigate where resources come from, discuss current issues of modern living and be introduced to the concept of a 'take-make-waste' society. Children will be involved in building a 'Green Tower' to explore how communities can live more sustainably in the future.

The cost of the incursion is \$9.00, which is included in the excursion levy. Please complete the permission form attached below and return payment, if required, by **Thursday, 8th August, 2019**. Please note that no late payments or forms can be accepted past this date.

Kind regards,

LAUREN MCINNES, MICHELLE POLLEY AND CHRISTIE URQUHART

.....

**Grade 3 Australia 2050 CERES Incursion
Thursday, 15th August, 2019
Return permission form and payment by Thursday, 8th August, 2019
No late payments or forms can be accepted**
