GRADE 4 DIGITAL TECHNOLOGY WORKSHOPS

Dear Parents/Guardians,

In Term 4, we are excited to be holding a series of digital technologies workshops to increase digital literacy for our Grade 4 students. This is part of Science, Technology, Engineering and Mathematics (**STEM**) learning. Students will utilise a range of technology devices to develop their problem solving, mathematical, creative and logical thinking skills.

The program will be delivered by the Scope IT Education Team. Students will be following on from the Young Coders Program they participated in last year in Grade 3. They will be working together to solve a range of challenging computational problems. The critical thinking and problem solving skills apply to all areas of students' school work and home life.

Students will complete a series of ten workshops held every Friday (commencing on Friday, 11th October, 2019). Each workshop will run for fifty minutes.

The cost of the incursion is \$30.00 and please note that refunds cannot be given for individual classes missed. The incursion is covered by the excursion levy. Please forward the permission form and payment (if levy not paid) to school by Wednesday, 9th October. Please note that late payments or permission forms cannot be accepted.

Kind regards,

GRADE 4 TEACHERS

GRADE 4 - DIGITAL TECHNOLOGY WORKSHOPS

Money and permission form due back by Wednesday, 9th October, 2019
(Please note that late payments and permission forms cannot be accepted)

My child in Grade has my permission to attend the "Digital Technology Workshops" incursion commencing on Friday, 11th October, 2019.

- I enclose \$30.00 to cover the cost of the workshops.
- Please deduct payment from my incursion/excursion levy
