

MEPS SRC SPOTLIGHT

Edition 2 | Term 3

Student Projects: Connectedness.

This week we speak to Mia from Grade 4 and learn about a special project that she is working on that the whole school community can take part in from home.

Mia | Grade 4 SRC Representative.

What is your role in the SRC?

I believe that my role in the SRC is to think of ways to improve the school, such as thinking of new activities and ways to get equipment that will help our community.

What is your SRC project and what do you hope to achieve by implementing it?

The project I am working on will help make the playground look more colourful and friendly whilst also helping to protect our trees from damage. We will work together to create an artwork to wrap around a tree. I would like it to represent that we are all here for each other and that we are all ok. I would like the project to show that we are all being supported by one another even though we are apart.

To get involved in the **Crafty Connectedness** project you can:

1. Use scrap wool to knit, crochet or hand stitch a small piece of fabric at home.
2. When finished, drop it off in the **SRC Crafty Connectedness** box on the desk in front of the Admin. building entrance. We will take donations for the whole term.
3. Remember to attach your name and class so that we can acknowledge your contribution when we reveal the finished project. Members of the SRC will work onsite to stitch the pieces together and decorate our first tree next to the Art Room stairs.

HOW TO: Learning to knit or crochet at home is a fun, mindful activity and a great way to maintain connections with your loved ones.

You can try the link below to get started:

We look forward to seeing how your fabulous creations come together.

~ The SRC Team ~

FACT: Yarn bombing is a type of street art that uses colourful displays of knitted or crocheted wool to decorate an object.
