

Prep at MEPS – Outside Play

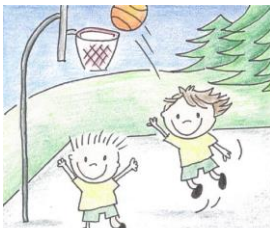

Q: Will my child be supervised during outside play?

A: We have at least three staff on yard duty at MEPS. At the beginning of the year our Prep children will receive additional supervision as they become familiar with the playground and schoolyard. Our first aid room is always open during outside playtime, if required.

Q: Where will my child play?

A: Initially our Prep children will play in their very own playground, which has been specifically designed for children their age. As the children become more familiar with school, their teachers will introduce them to other parts of the schoolyard.

Q: Who will my child play with?

A: Our Prep children enjoy having the Prep playground to themselves throughout the year. They will know they can always find a Prep friend here. Each child will also have an older buddy, a familiar face and someone who can provide help if needed. So that similar-sized children can enjoy physical play on our oval and basketball courts, our Prep to Grade 2 students can enjoy the oval for the first half of recess and lunchtime and the basketball courts in the second half.

Do not hesitate to contact reception or principal, Kim Wheeler, with any questions.
