

29th April, 2022

**Year 6
Crazy Chemicals 2022 Incursion
Wednesday, 18th May, 2022**

Dear Parents/Guardians,

We are delighted to offer a Crazy Chemicals Session to all students in Year 6 on Wednesday, 18th May, 2022. This is coming to us from Supreme Incursions.

In this 90-minute voyage of discovery, students explore basic chemical reactions and correctly describe fundamental changes in matter. Students will be divided into groups and sent on a rotation of exciting hands-on science activities to promote critical thinking exploring a range of chemical reactions and change processes. Students will be challenged to make their predictions and observations with terminology, keywords and equipment differentiated to match Year 6 level.

Chemical Science Curriculum outcomes:

Session Focus: Solids, liquids and gases behave in different ways and have observable properties that help to classify them (VCSSU076)
Changes to materials can be reversible, including melting, freezing, evaporating, or irreversible, including burning and rusting (VCSSU077)

The cost of this incursion is \$16.00 and is covered by the excursion levy. Please return the permission form and payment (if applicable) **by Tuesday, 10th May, 2022**. Late payments and permission forms cannot be accepted.

Yours sincerely,

YEAR 6 TEACHERS
CATHY O'TOOLE, JAVETTE WESTLAKE AND PHIL LEONARD.
