

Mt Eliza Primary School

Science Fair - Entry Form

Key Information:

Entries - Can be individual, pairs or a group of 3 (maximum). Each child must hand in their own entry form signed by the student and their parent/guardian.

No late entries will be accepted.

Guidelines:

Creative Writing

May be a picture book, comic or short story (no longer than 1000 words)

Your story must be based on one of the following themes:

- The clever tractor on my farm
- Look at all these devices!
- Our planet in 2100
- The robot that said hello

Models

May be a representation of any device or type of technology. It can be a working or still model (one that moves, or one that just looks like an object). Your model must:

- Come with instructions
- Includes an illustrated design or diagram of your model
- Be safe for others to operate
- Must be made out of materials that are safe and strong
- Be well constructed (will stay together on the way to school and during science fair)

Posters

May be A3 or A2 size. You may handwrite or type your poster information - but it must be in your own words. It must include illustrations and/or pictures of your topic as well as written information. On the back of your poster you are required to write down the sources of your information (eg name of book or website you used to help find out information)

Themes for the posters are:

- Robots Saving Lives
- Inventions or Innovations for sustainability
- Technology and farming
- Welcome to my Smart House

Games

Your game may be a dice, board or card game (or combine all elements).

Your game must:

- Be based around technology and/or the future of our planet.
- Come with clear instructions
- Includes all elements (eg you must provide the dice or cards for the game).
