# GRADE 3 AND 4 DIGITAL TECHNOLOGY WORKSHOPS "YOUNG CODERS"

Dear Parents/Guardians,

In Term 4, we are excited to be holding a series of digital technologies workshops to increase digital literacy for all our students. This is part of Science, Technology, Engineering and Mathematics (**STEM**) learning. Students will utilise a range of technology devices to develop their problem solving, mathematical, creative and logical thinking skills.

The program will be delivered by the Scope IT Education Team. Students will be introduced to the basic elements of computer science and coding. They will work together solving computational problems. The critical thinking and problem solving skills learnt, will apply to all areas of your child's school and home life.

Students, in their home classes, will participate in a series of ten workshops held every Friday (except the last school day of the year), commencing on Friday, 12<sup>th</sup> October, 2018. Each workshop will run for fifty minutes.

The cost of the incursion is \$50.00 and please note that refunds cannot be given for individual classes missed. The incursion is covered by the excursion levy. Please forward the permission form and payment (if levy not paid) to school by Wednesday, 19<sup>th</sup> September. Please note that late payments or permission forms cannot be accepted.

Kind regards,

GRADE 3 AND 4 TEACHERS
